Profile

Enthusiastic Front End Developer with over 4 years of experience delivering top-quality results and journeying up to his "Silk" point of life. **Highly adaptable** to diverse environments and technologies.

Skilled at transforming both business requirements and UI mockups into impactful web applications with **pixel-perfect accuracy**.

Curiosity might kill the cat, but that won't stop me from exploring new horizons of ever-changing technology.

Professional Experience

BetterCast, Frontend Developer

02/2022 – 06/2023

Remote, Australia

- **Significantly refactored** the codebase to improve readability, reduce complexities, and enhance maintainability, resulting in increased development efficiency.
- **Participated actively** in code reviews, providing constructive feedback and suggestions to improve code quality and adherence to best practices.
- **Initiated and proposed innovative activities** and ideas to enhance team collaboration, productivity, and project outcomes, fostering a culture of continuous improvement.
- **Demonstrated exceptional availability and responsiveness**, being readily accessible to address team members' queries and provide timely support, ensuring smooth project progress.
- **Showcased strong troubleshooting skills**, proactively identifying and resolving bugs, and ensuring the delivery of high-quality, error-free web applications.

Appvantage Asia, Frontend Developer

02/2019 – 06/2021

Remote, Singapore

- **Swiftly transformed** UI mockups into web applications with minimal issues, accounting, and covering edge cases to prevent potential issues.
- **Co-ordinated closely** with team members to achieve the goal effectively.
- **Effectively organized and developed** multiple projects with a tight deadline as the **sole** React Developer, with high customer satisfaction which includes **notable clients** such as Cycle & Carriage, Mercedes Benz, Mazda, Kia, Mitsubishi, and more
- **Adapted and maintained existing projects** quickly despite unfamiliar programming languages.
- **Analyzed potential risks** that could arise on upgrading existing projects.

InnovatoryMM, *Frontend Developer / Co-Founder*

02/2018 – 02/2019

Myanmar

- **Brainstormed potential risks** and **rewards** for the new system to be created.
- **Effectively presented** the system to the potential stakeholders on technical perspective.
- Developed the landing page and mobile application as the **sole** Front End Developer while actively listening to user feedbacks.
- Created a block-chain themed voting system for Yangon Technological University Students' Union as the sole Front End Developer, which was selected with the **highest votes** among the systems.

Education

B.Sc. (Hons) Business Information Technology, *University of Greenwich*

02/2019

L5 Diploma in Computing, *NCC Education*

02/2018

L4 Diploma in Computing, *NCC Education*

02/2017

Awards

Game Dev Challenge 2018 - Participation Award

12/2018

Startup Challenge 2018 - Tech for Life - First Place

07/2018

Uni Hack Challenge 2018 - First Runner Up

02/2018

Organizations

KMD Computer Science Club, *Co-Founder*

06/2018 – 02/2019

- Co-Founded the first-ever Computer Science Club at KMD with three main topics - Web Development, Game Development, and AI/Machine Learning.
- Kept students engaged and become more passionate in Web Development, along with other activities.
- The main purpose of the club is to help youths, especially those who just graduated from high school, find their passion and not stray off the path of their life.

JavaScript

ES6, DOM manipulation, event handling, AJAX / Fetch

ReactJS

Main Specialization, incl. Redux, Redux thunk, Redux Saga

TypeScript

NextJS

API Integrations

RESTful API, GraphQL

Debugging and Testings

Cypress, Cucumber, Jest, Unit Testings

CSS

CSS3, Flexbox, Grid, Responsive Web Design, Cross-Browser Compatibility, CSS in JS, CSS Modules, Sass, Scss, Bootstrap, Tailwind,

JQuery

ReScript

GatsbyJS

Package Managers

npm, yarn

Version Control Systems

git

Interests

Nintendo

Pokémon, Kirby, Zelda, Mario, Fire Emblem, and almost everything in general!

Gaming

Although mostly casual, I tend to like competitive gaming sometimes, especially Pokémon!

Music!

Ranging from retros such as Elvis Presley, Bee Gees, Queen to Video Game OSTs!

Coding

Nothing beats the feeling to resolve a bug you have to skip lunch for!

Watching Anime

I'm mostly into time travel, but I do watch quite a lot of genres!

Time Travelling

Although not having done personally (ha!) I'm fascinated in the concept and adore topics related to this.
